

# AN ELECTRIC FUTURE, **NOW**

Did you know that Wichelstowe is one of the most EV ready developments in the UK? From October 2020, all EV drivers have access to public charging facilities within the estate. It's simple to find one of these green charge points and plug-in!

## USE A **PUBLIC** CHARGE POINT

### 1. Download the Connected Kerb App

Available on:

### 2. Find the nearest charge point

By typing in "Wichelstowe".

### 3. Start using it

Simple. **Only £0.24 per kWh.**

## FUTURE **EV OWNERS,** DID YOU KNOW THAT...

1

You can **save 50% on maintenance and repair bills**

EVs have only 20 moving parts vs. 2,000+ in a petrol or diesel car.

2

Charging an EV is **3 times cheaper** than petrol

3

You can save **660kg of carbon emissions a year**

That's

smartphones charged!

4

The **average** range today is over **200 miles?**

That's commuting to Exeter from Wichelstowe and back on a single charge.
